

Medically Vulnerable Populations (MVP) Coordinator Position

This position is responsible for providing support to all non-hospital coalition partners. The MVP Coordinator identifies, develops, and implements programming for partners, including Skilled Nursing Facilities, Dialysis Providers, Home Health Agencies, Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID), and Inpatient Mental Hospitals, and works as a key member of the NVERS Team. The NVERS team supports emergency preparedness projects that build or enhance capability and capacity across Northern Virginia, the National Capital Region, and the Commonwealth.

The ideal candidate is highly motivated, works independently effectively, and thrives in a fast-paced setting. He or she will have the ability to exercise good judgment in a variety of situations, with strong written and verbal communication, administrative, and organizational skills. The candidate must be able to navigate a fast-paced, ever-changing work environment and balance competing priorities, both individually and in a collaborative team setting. He or she will have a positive, “can-do” attitude and understand the unique challenges of a small team, including wearing multiple hats to ensure the job gets done.

Roles and Responsibilities

Programmatic

- Develops and maintains relationships with representatives from non-hospital facilities by identifying and meeting with new Nursing Home, ICF/IID, and Dialysis Facility Administrators. The MVP Coordinator provides an overview of the coalition and the Virginia Healthcare Emergency Management Program (VHEMP) to new facility administrators.
- Monitors statewide healthcare status system daily for new user accounts from non-hospital partners and ensures user accounts are promptly approved.
- Works with the Training and Exercise Coordinator to identify and develop exercise opportunities for non-hospital partners and serves as a Subject Matter Expert in partner exercises that impact non-hospital healthcare partners.
- Responsible for monitoring and maintaining knowledge of updates to local, state, and federal facility licensing requirements and related emergency planning requirements.
- Ensures assigned projects and deliverables are completed on time, within the period of performance, and within budget
- Provides coordination and program support for Northern Virginia healthcare committees and working groups to assist with discipline-specific projects and inter-disciplinary initiatives.
- Procures and manages supplies and equipment to include seeking out bids, vetting, and

choosing vendors

- Works with the Operations Director to provide updates on project finances and budgets

Administrative and Committee Support

- Coordinates committee and working group meetings
- Supports the committee chair with administrative duties and correspondence
- Provides meeting preparation, documents minutes, and ensures timely follow-up for assigned healthcare meetings
- Develops presentations and agendas
- Ensures internal documents, memorandums, project and committee documents are current and updated to the website and Dropbox as appropriate

Operational

- Responds to Regional Healthcare Coordination Center (RHCC) Calls from MVP facilities in coordination with the RHCC Manager during regular business hours
- Serves as part of an on-call rotation to staff the RHCC.
- When required during regional disasters or major emergencies, this position supports the organization's 24/7 emergency response functions through staffing of the Regional Healthcare Coordination Center (RHCC).

Education and Experience

- 3-5 years of project management experience
- Master's degree preferred
- Education and/or work history in public health, public safety, healthcare administration, or emergency management
- Track record of building solid, collaborative working relationships and who are committed to collaboration
- Enjoy providing excellent customer service
- An understanding of the current emergency preparedness and response initiatives in Northern Virginia
- A basic understanding of Northern Virginia, MWCOG, healthcare coalitions, and the NCR is preferred
- Must be a self-starter who thrives in an environment with ever-changing priorities, can multi-task effectively, and is committed to delivering exceptional work
- Must be equally competent and comfortable working alone and with a team; remotely and in-person
- Strong computer skills, including mastery of Microsoft Office

- Proven procurement experience, including seeking out bids, vetting, choosing vendors, and successful management to ensure timely and on-budget completion of projects
- Must be self-reliant; finding solutions to problems on your own but knowing when to ask for help
